Health, Safety and Environmental Policy

The long-term business success of the company depends on our ability to protect people and the environment. Emphasis is placed on human health, operational safety, and environmental protection. This commitment is in the best interests of all our customers, employees, and our contractors. Management has a leadership role in communicating, implementing, and complying with the HSE program. Employees are committed and involved and are expected to know and follow the HSE Policies and Programs and be accountable for his/her actions

We are committed to:

- Protect, and strive for the improvement of, the health and safety of our employees at all times.
- Identify and minimize waste and HSE incidents using A.L.A.R.P principles. Our target is to have zero incidents.
- Plan for, respond to, and recover from emergencies, crises or business disruptions.
- Apply our technical skills to minimize HSE aspects and impacts in the design and provision of our services and products.
- Communicate our HSE program through the new employee orientation process, trainings, awareness and tool box talks.

The commitments listed are in addition to our basic obligation to comply with company standards, as well as all applicable laws and regulations where we operate. This statement is critical to our personnel well-being and to our business success because it helps us to systematically minimize HSE losses and adds value to our company.

Clint Havner
VP, Manufacturing & Technical Operations
